Att.: To whom it may concern  
Ref.: CE marking of nails

## EC declaration of conformity

### Specification for ITW nails

This declaration covers Paslode® and DUO-FAST® nails for structural timber applications. These products comply with Annex ZA of EN 14592:2008.

Corrosion protection: Bright, Electroplated, GALV-PLUS®, HDG (hot dip galvanized), A2 (AISI304) and A4 (AISI316).

The corrosion protection of the ITW nails complies with the requirements in EN 1995-1-1 and is related to the 3 service classes as follows:

Surface	Service class 1	Service class 2	Service class 3
Bright	x		
Electroplated – Fe/Zn 5c	x		
Electroplated – Fe/Zn 12c	x	x	
GALV-PLUS®	x	x	
HDG	x	x	x
A2 (AISI304)	x	x	x
A4 (AISI316)	x	x	x

Initial Type Testing (ITT) has been carried out by the following notified laboratories:

VHT - Versuchsanstalt für Holz- und Trockenbau GmbH Annastraße 18 64285 Darmstadt Germany	Strojírenský zkušební ústav Tovarní 5 46621 Jablonec nad Nisou Czech Republic
--	--

The declared values from the ITT are contained in a separate document.

The manufacturing process complies with the requirements for an FPC system as described in EN 14592:2008 clause 7.3.
